The campus is built like a micro-village offering food services, accommodation, various meeting spaces, an impressive sport center, and an observatory all within 0.5 km. The diversity of our facilities makes our campus the ideal choice to welcome sports teams, corporate groups, conferences, student groups on year-end educational trips, associations, and interest groups that are focused on a wide range of interests. You will appreciate the convenience of such a comprehensive solution, the comfort of our rooms and the affordable prices offered by Bishop's University.

Centennial Theatre

Inaugurated on January 14, 1967 on the Bishop's University campus, Centennial Theatre was designed and built to provide an intimate visual atmosphere with excellent acoustics. This superb theatre environment recalls back to the days of the Greek amphitheatres. It seats 550 while still making its audience feel close to the stage. The latter is Italian in design, with proscenium and arches moved by an elevator. The diverse configurations, made possible by this system, provide for a surprisingly flexible stage use.

Over the course of its 50-odd years of history, the Université de Sherbrooke has earned a solid reputation for itself and is now considered to be one of Canada's best universities.

The amphitheatre of Salle Maurice-O'Bready is the fourth largest in Quebec, with 1501 seats. It has a high fidelity FM stereophonic sound system that enables its audiences to receive the maximum of sound while benefiting from perfect listening conditions, totally exempt from ambient noise.

The cultural centre houses two well equipped corporate rooms for hosting small groups. These facilities can be used as general headquarters, work rooms or simply meeting places for your guests. There are also four spacious foyers which can be used for a variety of purposes: press conferences, book launchings, gala evenings, fairs, buffet or opening a convention. These four lateral venues offer an exceptional meeting framework. Each has toilet facilities, bars and cloakrooms. Both the two at the parterre (ground) level and the two at the balcony level can accommodate large groups for a cocktail reception, a banquet or a dinner and show.
